

HD Digital Video & Still Camera

Item FPHDV007

High definition video has never been available in such a sleek, compact and stylish camera. A long lasting rechargeable battery and SD card slot make this a convenient and easy to use camera.

This High Definition video camera puts the power to create a state-of-the-art video masterpiece in the palm of your hand. With still image capture up to 12 mega pixels (with interpolation) and 5 mega pixels without, you no longer need to carry separate cameras for still and video.

A clever drop down door conceals the rechargeable lithium battery and the SD card slot.

- 2.4" LCD preview screen
- 5 MP digital photos
- HD video capture
- Rechargeable LiOn battery
- Pop-out USB connection
- TV video cables included
- SD card slot, up to 32 GB
- 30 or 60 FPS video
- AC charger included
